

# DIY Printables - oh, how posh! paper shoppe

## Summer BBQ Drink Flags

Print flags on heavy white bright card stock and cut them out into strips. Measure the glass you'll be putting the drinks into. Place the coffee stirrer or bamboo stick into the glass and cut at the point when you want the flag to end. Fold each flag in half. Apply craft glue to the top third of wooden coffee stirrer or bamboo stick, slip it into the fold so it sticks out slightly at the top, and hold it in place until dry. Repeat steps until all flags are completed.
